Professional Summary

I'm a Computer Science student with practical experience in full-stack web development, specializing in React.js, Node.js, and MongoDB. I enjoy building clean, user-centric applications and have strengthened my problem-solving skills by solving 500+ coding problems on platforms like LeetCode and GeeksforGeeks. I'm a proactive team player who takes ownership of tasks and continuously seeks opportunities to learn and contribute to impactful tech projects.

Education

Netaji Subhash Engineering College, Kolkata, West Bengal, India

Bachelor of Technology - Computer Science and Engineering

September 2022 - June 2026

8.59/10

Mother Teresa Academy, Darbhanga, Bihar

Higher Secondary Education (CBSE), PCM

May 2019 - March 2021

91.20/100

Mother Teresa Academy, Darbhanga, Bihar

Secondary Education (CBSE)

April 2017 - March 2019

90.00/100

Skills

Programming Languages: C | Java | Python | JavaScript | SQL

Frameworks & Libraries: React.js | Node.js | MongoDB | HTML | CSS

Tools & Platforms: GitHub | Visual Studio Code | IntelliJ IDEA Community | Android Studio

Soft Skills: Team Player | Leadership | Communication | Time Management

Relevant Coursework: Data Structures & Algorithms | Database Management System | Operating Systems | OOP Concepts
| Computer Networks | Software Engineering

Experience

React.js Intern – Celebal Technologies

June 2025 – August 2025

- Developed multiple React.js projects focused on responsive and interactive UIs.
- Built a **Service Desk Application** as the final project with authentication and ticket management features. [\(GitHub\)](#)
- Implemented admin panel for ticket assignment, tracking, and resolution.
- Enabled real-time status updates and user notifications for raised tickets.

Projects

Text Processing Tool

[\(GitHub\)](#)

- Developed a React-based text processing tool that allows users to manipulate text efficiently, including converting case, removing extra spaces, and counting words/characters.
- Designed a clean and responsive UI using Bootstrap for a better user experience.
- Tools Used:* React.js, Bootstrap

Khabree - News Application

[\(GitHub\)](#)

- Built a React-based news application that dynamically fetches and displays the latest news headlines from an external API.
- Implemented category-wise news filtering and a responsive UI using Bootstrap.
- Tools Used:* React.js, Bootstrap, News API

iNoteBook-Notes on Cloud

[\(GitHub\)](#)

- Created a full-stack note-taking application with user authentication and CRUD operations.
- Implemented JWT authentication, used MongoDB for storage, managed state with React Context API, and designed a responsive UI with Bootstrap.
- Tools Used:* React.js, Node.js, Express.js, MongoDB, Bootstrap, JWT

Coding Profiles

LeetCode: leetcode.com/Prashantkumar_jha/

GeeksforGeeks: [geeksforgeeks.org/jhaprashant/](https://www.geeksforgeeks.org/jhaprashant/)

Achievements

- LeetCode:** Solved **700+** problems, Participated in **45+** contests with a **maximum contest rating of 1693**.
- GeeksforGeeks:** Solved **600+** problems and achieved an institute rank of **70** among **3,300** registered users.
- Competitive Coding:** Achieved **1st place** in the **Aavahan Coding Contest** at NSEC.
